

WHAT'S NEW

SEATING:

Office Master introduces the new **Affirm series** that combines style and comfort. The Affirm Series is available in a mid back and high back, and also high back with headrest. Three different mechanisms are offered for different user applications. The back has different options for a Nightfall Black or a Starlight Silver mesh backrest. Nine different backrest upholstery colors are offered to add additional design to the chairs.

Lesro's new **Amherst Steel** seating is an ideal balance of style, strength, and value. Sturdy steel construction for high traffic environments. Chairs are available in 275, 400, and 750 pound capacity, with Generous space between seat and back for easy cleaning. Available in four frame finishes (Black, White, Silver and Bronze). Chairs are gangable and offer a urethane armrest as an option.

ELECTRIC HEIGHT ADJUSTABLE TABLES

RISE

RISE S2

ASCENT

ISE provides three different electric height adjustable tables to meet the right user application and budget. The **RISE** table is the Best in its class to meet ANSI/BIFMA specifications of 22"-48" in height range. The **RISE S2** table has a 27"-46" height range. For those on a budget, the Ascent offers 24.5" – 50" adjustable height range. ISE tables are available as the base only or with tops to go along with the base.
